

**Cody Shooting Complex**  
**January 11, 2022**  
**Meeting Minutes**

The meeting was called to order at 17:59 by President Otis Smith. The members reviewed the December minutes. A motion was made by Director Tiger McNeil and seconded by Director Josiah Bullock to approve the minutes. Motion carried.

**NEW BUSINESS**

It was reported that the club was without water for over a week. Rural Water went through the whole system and stated the problem was beyond the meter and therefore up to the club to fix. A plumber found and fixed the leak near the skeet turnoff. Since this was found on the Rural Water side of the meter, President Otis Smith will send the plumber's bill and a letter explaining why Rural Water needs to pay.

It was reported that someone is shooting a .308 at the plates on the pistol range. All board members were encouraged to eject anyone shooting a rifle caliber in the pistol bays and take their membership card. Chief Range Safety Officer Rich Redovian is concerned about damage to the protective plate causing ricochets.

Director Tiger McNeil rebuilt the skeet machine due to the bearings being worn out.

**OLD BUSINESS**

Director Dean Blackwell asked for an update on getting the gutters on the rifle range. The weather has not permitted work to happen on it yet (too windy). Work will resume in better weather.

The main gate is once again fixed. President Otis Smith believes the aluminum sensor shrinks in sub-zero temps and malfunctions. He tightened the belt drive and added a heat bulb to keep it warm. Director Josiah Bullock suggested putting a temperature control on the light to have it automatically turn off in warmer weather to protect the electronic components.

As there was no further business, President Otis Smith called for an adjournment. The meeting adjourned at 18:13.

Respectfully submitted,

Otis Smith  
President CSC

Stephanie Bullock  
Secretary CSC
