

## **Cody Shooting Complex**

**October 12, 2021**

### **Meeting Minutes**

The meeting was called to order at 17:59 by President Otis Smith. A motion was made by Youth Director Tiger McNeil and seconded by Vice President Milt Allen to approve the September minutes.

President Otis Smith gave an update that the mining of the range was complete. The range will receive 40% of the funds from the reclamation of the lead.

Outdoor Sports wants to return to Cody Shooting Complex next summer. Details to follow.

The Magpul is not going to be held at Cody Shooting Complex. President Otis Smith contacted the Travel Council and proposed for them to set up a different three-day shoot without the red tape of the governor's shoot. A motion was put before the board to accept this turn of events. A motion was made by Youth Director Tiger McNeil and seconded by Director Wes Hanson

An update on the campground electric upgrade was given. It is now 100% finished. The total cost between Tiger and Acker was \$1900. Thanks to Youth Director Tiger McNeil, Director Wes Hanson, and Director Dean Blackwell for their hard work to complete this project.

President Otis Smith shared that Cody Shooting Complex's insurance has increased by \$200 per year.

Directors Josiah Bullock and Tiger McNeil gave an update on the planning progress for dirt berm work on the newly acquired land. To stay within NRA's recommendations, dirt berms will need to be built to protect the road to the north and Newton Lakes to the south. This berm would need to be 20 ft tall on the southern line and 12ft tall on the northern line. 2000-2500 yds of material will need to be moved to build dirt berms to NRA recommendations. Another idea proposed was the addition of a shooting frame, which will decrease the amount of dirt needed, but is not as secure. The purpose of this range is to become a 100-200yd sight-in range. This will remain open even if the longer rifle range is in use. The positions of these lines can allow for a 3D archery range in a nearby field. The approximate cost at this stage is estimated around \$40,000.

Range Safety Officer Rich Redovian and his crew will finish posting signs along the highway.

#### **New Business:**

Treasurer Mike Brodner's Report – starting January 1<sup>st</sup> the accounting will switch from Quickbooks Desktop to Quickbooks Online. This will allow the accounts to be accessed from any computer and securely backed up on Quickbooks online server. On December 1<sup>st</sup>, Treasurer Mike Brodner will start signing up for the new system and recasting the P&L. This will cost \$300 per year. A formal motion to accomplish this was stated by Treasurer Mike Brodner. All approved and the motion carried.

A conversation was raised to consider charging skeet, trap, and sporting clay nonmembers \$20 per day in addition to the cost of clays. Several board members had concerns about this raise on the heel of

overall membership being raised at the same time and how to monitor this fee being paid. The conversation was not put to a motion and was tabled for now.

A motion to adjourn was made by Director Mike Schnell and seconded by Youth Director Tiger McNeil. The meeting adjourned at 18:45.

Respectfully Submitted,

Otis E. Smith  
President CSC

Stephanie Bullock  
Secretary CSC

Done and signed as requested.
